

VOICE COACHING FOR FACULTY
FALL 2008 WORKSHOP SERIES
PARTICIPANTS' PRE-SURVEY

Welcome to the Fall 2008 Faculty Development Learning Community, "Voice Coaching for Faculty!"

In order to help create the most effective learning experience possible, please review the following statements, and check all that apply. Thank you!

I would like to improve my vocal energy and resonance in the classroom

I sometimes experience vocal fatigue or pain after a long lecture or discussion

While students can hear me in a "regular" classroom, they seem to have trouble hearing me in a large classroom or lecture hall.

I think I speak too fast in the classroom

I "slur" my words often

I have an accent unfamiliar to many CSUN students which might impede communication in the classroom.

I have a good command of English but have trouble pronouncing certain words and sounds.
